## Is Your Computer Feeling Sick?

### **CALL US FOR SERVICE!**

Is your computer running a temperature, does it have the flu or is it just feeling under the weather?

Call Dr. Fox and he will give your computer the proper medicine to make it feel better real soon!

Viruses, bugs and hardware failure are major problems for your computer. They can cause your computer to operate very poorly, give you a lot of problems, waste your time and give you nothing but a headache. RedFox Computer Services will get your computer back up and running in no time.

*"We can make your computer  
run like it's new again"*

## Tape to DVD Transfer

We can take your Video8, (8mm camcorder), Hi8, and VHS tapes and transfer them to DVD.

The reason to transfer your tapes to DVD's is that tapes deteriorate fairly fast. DVD's do not deteriorate with time or use and have a lifespan of over 100 years.

Your DVDs will come with personalized menus, titles and packaged in a quality DVD case with full color labels.

*Preserve your family videos and  
memories while your tapes are still in  
good condition!*

## On-Site Service

**At RedFox Computer Services  
we will come to you!**

For businesses, computer problems can cost you time and money. We can minimize your downtime and get you back up and running in no time.

At home, computer problems are very inconvenient. Don't take your computer apart and drive it across town to get it fixed, call us and we will come to you.

## Home Theater Setup

Just bought a brand new HD TV or Home Theater system, and are you having problems installing and setting it up properly?

Call us and we'll install everything and do all of the tedious work of setting everything up for you so that it looks and sounds perfect!

We have years of experience with setting up and installing LCD, LED, Plasma TV's and Home theater systems.
